

IMAGE HOSTING SERVICE

As the amount of recorded information increases, businesses struggle to manage content. DataSafe's Image Hosting Service enables businesses of any size to more effectively and securely manage, retrieve and digitally store corporate information of any kind, including: paper documents, electronic files, email messages and print streams.

DataSafe has selected Digitech Systems of Greenwood Village, Colorado to act as our partner in this service offering based on their years of experience as the recognized leader in Enterprise Content Management. Founded in 1997, Digitech Systems has developed a variety of software programs that offer affordable Enterprise Content Management systems to organizations of any type and size. These products provide unprecedented ease-of-use and architectural flexibility, while balancing fully featured products with a sensible price/performance ratio and legendary customer service.

The DataSafe/Digitech Systems partnership enables businesses to reduce content management costs, enhance security and compliance and improve process efficiency. With software and services that deliver **any document, anywhere, anytime**, organizations create a sustainable competitive advantage.

Why Image Hosting:

- **Any Document, Anywhere, Anytime**
- Improve business processes and customer service with instant, online access to imaged documents.
- Free IT departments from managing growing amounts of data with scalable and maintenance-free storage.
- Convert capital expenditures into tax-deductible operating expense.
- Implement information policies with multiple layers of security.
- Ensure proper procedures are carried out by automating and tracking compliance processes.
- Gain audit confidence with documented evidence of security controls, audit trails, user activity and document history.
- Protect data physically and electronically with controlled access and 24/7 system monitoring.
- Automate data backups by sending encrypted copies of live information to any secure location.
- Recover quickly after a disaster—our centralized location allows you to retrieve critical data from any internet connection.

DataSafe/Digitech Systems Image Hosting Solution: Enjoy 24/7 ultra-secure, online data access without additional investment in hardware, software or IT personnel.
